

I am outraged by the FCC's lack of reaction to Sinclair Broadcasting's declaration that they will be airing an anti-Kerry documentary just a week before the upcoming presidential election. This clearly partisan use of the airwaves is a misuse of public resources -- the airwaves are supposed to belong to ALL citizens, not just a chosen few. I urge you to take action to punish Sinclair for choosing to give a one-sided presentation of the facts, especially when they know no corrective action can be taken before the election.
